20a. How does the Committee accomplish its purpose?

The Board serves the Global AIDS Coordinator (“the Coordinator”) in a solely advisory capacity concerning scientific, implementation, and policy issues related to the global response to HIV/AIDS. These issues will be of concern as they influence the priorities and direction of PEPFAR evaluation and research, the content of national and international strategies and implementation, and the role of PEPFAR in the international discourse regarding appropriate and resourced responses. The committee accomplishes its purpose largely through the generation of recommendations.

20b. How does the Committee balance its membership?

The Board is composed of 29 members appointed by the Coordinator, representing non-U.S. Government personnel. All Board members are representative members. The membership is representative of the HIV/AIDS community, academia, international experts, partner government representatives, multilateral and bilateral agency representatives, foundations, advocates, and non-governmental organizations.

20c. How frequent and relevant are the Committee Meetings?

Original Estimated Number of Meetings per Year - 1 or 2 face-to-face meetings with teleconferences as needed. In order to keep committee meetings relevant and productive, working groups have been formed that meet intermittently and on an ad-hoc basis. The ideas and advice generated by the working groups result in increased productivity and clearer recommendations produced by the whole committee during face-to-face meetings.

20d. Why can't the advice or information this committee provides be obtained elsewhere?

The committee is necessary to keep PEPFAR programs at the forefront of scientific knowledge. The members of the committee have specific expertise which is relevant and crucial to S/GAC in creating and implementing high-quality programs. The advice received by the Coordinator from the committee in the past fiscal year has assisted PEPFAR by informing next steps on how to swiftly pivot programs to achieve greater impact in response to new HIV normative guidance from the World Health Organization and others.

20e. Why is it necessary to close and/or partially closed committee meetings?

N/A

21. Remarks

This committee advises S/GAC on science, implementation, and policy issues. Its function is best described as "Other" due to this broad scope. Further, this committee does not routinely produce formal reports, but does issue recommendations on policy decisions that are captured in the meeting minutes following each meeting. For a full meeting summary, including recommendations offered by the Board, please follow the link below where you may find past meeting minutes. Please see pepfar.gov/sab and pepfar.gov/sab/209264.htm.
